

“Get Knowledge To Help Self.”

At the University of Islam in Chicago we have an enrollment of over 600 black boys and girls who are obtaining an educational foundation which will equip them to do for themselves and their people. There are Universities of Islam established in Detroit, New York, Washington, Atlanta and Los Angeles. These Universities operate on a full time basis, and in numerous other cities similar institutions are open for enrollment on a parttime basis. Universities of Islam are developing and expanding so that the most relevant education for black children will be available to black children everywhere.

Children at the Universities of Islam are not exposed to the problem of miseducation confronting the black child in the public schools and other parochial schools. There is no juvenile delinquency among Muslim children.
