

THE DEAD M

(The following article is reprinted by popular request from the Jan. 20, 1967 issue of Muhammad Speaks.)

Great mental suffering is beginning to plague certain classes of Black people.

THE HEADS of governments and nations are the root cause of the great tribulation, dissatisfaction, disagreement, wars, and revolutions through their deceitful dealings between man and man.

Prosecution, deprivation of justice, murder and killing of the American so-called Negroes is wide-spread and there is great hatred of those who turn to righteousness, who are called Muslims (the resurrected ones).

THE REASON for the slave-masters' great hatred of the coming of Islam to the so-called Negroes in America—to awaken them to the knowledge of truth—is because truth hurts the wicked.

The so-called American Negro is mentally dead. It is a must, according to the Bible and Holy Qur'an, that all the mentally dead Lost-Founds rise.

THE SLAVE-MASTER and his children mentally murdered and killed their slaves, but, the Holy Qur'an says, "It is incumbent on Allah to give mental life" to the mentally dead Lost-Founds.

The Lost-Found has been so thoroughly deceived by the slave-masters that they now claim an equal share with the slave-master and equal respect and honor.

HOW CAN WE be so blind, when it is the slave-masters who make the laws for the land and the people over which they rule? Heaven is offered to us, the mentally dead so-called Negroes, from God, Himself, who is able to take the kingdom (ruling power) from the white race of both Europe and America.

The mentally dead so-called American Negro rejects an offer to do something for himself with the

help of God and His people.

THEY WANT to be friends and continue to hang on to the white slave-masters' children. The slave-masters' children know they are foolish to want to go along with them, looking for salvation and equality.

The house of the wicked is disintegrating, yet the poor foolish Black man wants to see himself sitting in the seat of authority with his slave-master.

What future would we have with them? This is the time of the fall of the power and rule of the white race over the Black nation.

If we can unite and march throughout the North and South, and to the seat of the government (Washington, D.C.), why cannot we unite and ask the congressmen and President, who have robbed and deceived us for the past 100 years up from slavery, for something concrete?

You are made to howl with heartache and you are loaded with disappointment which you can scarcely bear. This shows that we are too lazy to take the responsibility for ourselves.
